

Head of Veterinary Ophthalmology position

Synopsis :

DFCvet (one of the biggest and full-equipped referral center in France) is looking for a Head of Ophthalmology service. The ideal candidate will be either Boarded, Board Eligible or residency-trained Veterinary Ophthalmologist.

The DFCvet Referrals is a 1,500 m² full-equipped SMALL ANIMAL referral center with a surgery unit, a medicine unit, a neurology unit, a diagnostic unit (X-rays, US, CT, High Field 1,5T MRI), an ICU and an oncology unit.

The DFCvet Referrals is located in Rennes, France.

Rennes is among a 400 000 people agglomeration, nearby the countryside and the Atlantic coasts (40 km), owing an airport and a direct TGV (high speed train) leading to Paris in 1h30. It is the capital city of the Brittany Region and therefore profits of a huge cultural patrimony and historical legacy. It also offers several universities and faculties (collaboration with Faculty of Medicine for Example) and research centers.

DFCvet is the only referral center in Brittany and will be the biggest private referral center of the western region.

The position is available for December 2018.

The position includes to work with a highly experienced staff with high quality equipment and to deal with a high number of clinical cases.

Qualifications:

Specialist training in veterinary ophthalmology such as DipECVO.

Ability to speak French is a requirement.

Form of employment:

Permanent and 100% extent position to be started in December 2018. Salaried position (salary to be negotiated and based on skills and prior experiences).
