

Debenham Veterinary Practice: Looking for an enthusiastic and dynamic veterinary ophthalmologist.

Suitable candidates would include ophthalmology certificate holders, diploma holders or AVP's in Ophthalmology. We would also consider an applicant with an interest in ophthalmology that would be willing to train and undergo further education. We are at an exciting stage of growth and development and a candidate interested in developing further business and research opportunities would be ideal. Ophthalmic facilities include ERG, retinal photography, ultrasound, two Oertli CS3 cataract machines, cryotherapy, electrolysis, multiple slit lamps and loupes, Lecia operating microscope, diamond burrs, anaesthetic ventilation and Dragon Medical Veterinary voice to text recognition for report writing. The successful candidate will be well remunerated consistent with experience and qualification. We would encourage any interested candidates to discuss the position and work environment with our current ophthalmologists and our leaving ophthalmologist.

Debenham Veterinary Practice is a rapidly expanding small business established four years ago. Due to our rapid expansion we are poised to open new larger premises with dedicated multiple theatres and state of the art facilities including seminar rooms dedicated ophthalmology theatre, CT scanner and radioactive iodine treatment. We offer referral in ophthalmology, dermatology, physiotherapy, dentistry, orthopaedics and soft tissue surgery as well as first opinion services for the local village. We are located in rural Suffolk within striking distance of the beautiful Suffolk coast. Rail links from Ipswich are one hour and 15min from London Liverpool Street.

We offer a relaxed and non corporate approach to our work with a small and friendly team. We strive for an inclusive and relaxed happy working environment. Applications can be addressed to Pete Wilson debenhamvets@gmail.com or call 01728 861289 or 07791734175.
