

Internship in Veterinary Ophthalmology at Ars Veterinaria Hospital, Barcelona, Spain

The Ophthalmology Service at Ars Veterinaria Hospital is accepting applications from qualified individuals for a one-year clinical Ophthalmology Internship. This program is designed to provide an intensive clinical and surgical training experience in Veterinary Ophthalmology.

Ars Veterinaria is a leading veterinary hospital dedicated to providing the highest standards of patient care since 1978. The hospital is comprised of more than 70 veterinary professionals including 12 European and American diplomates in different specialties (Dermatology, Neurology, Internal medicine, Ophthalmology, Radiology, Critical Care among others) and has an active post-graduate training (internships and residencies).

The intern responsibilities include primary care of the ophthalmology patients and training in the medical and surgical aspects of Veterinary Ophthalmology. The ophthalmology dedicated intern will work under the direct supervision of an ACVO diplomate (E.Abarca) and will join the two members of the Ophthalmology Service. The candidate must be able to communicate effectively in Spanish and English and will be involved in teaching seminars and be exposed to clinical research.

The application should include:

1. A personal letter of intent including reasons for applying to the internship and career goals.
2. Current curriculum vitae. One-year general internship or two years postgraduate experience is preferable.
3. Two letters of recommendation that should be sent directly to e.abarca@arsveterinaria.es. The letters should not be forwarded by the applicant.

If you are interested in applying for this position, please forward your application to e.abarca@arsveterinaria.es

Applications must be received by January 31st, 2020.
