

Scientific Assistant (m/f) (DipECVO) (Wissenschaftliche/r Mitarbeiter/in)

The Clinic of Small Animal Surgery and Reproduction at the Faculty of Veterinary Medicine of the Ludwig-Maximilians-University Munich, Germany,

is offering a position **to be filled immediately** for an

Academic Advisor (m/f) (Akademische Rätin / Akademischen Rat)

with the function of a Scientific Assistant (m/f) in a full-time position. The employment will be remunerated according to Bes.Gr. (salary class) A 13. Appropriate conditions provided also A 14.

For the position a license to practice Veterinary Medicine in Germany (Approbation) is required as well as the board-certified status of a Diplomate of the European College of Veterinary Ophthalmology (ECVO).

Generally, we expect an applicant who is a good teamplayer with dedication and personal commitment to clinical work, good organizational and communication skills as well as interest in scientific work and enjoying lecturing and teaching students and young veterinarians.

The field of duties includes the practical work in small animal ophthalmology, the establishment and supervision of a Residency-Programme as well as the active cooperation in research and the general educational tasks of the clinic.

Good German language skills spoken and in writing are a condition for being accepted.

We are a modernly equipped university clinic for small animals with a dedicated and specialized staff. We offer an independent and responsible job providing good professional and personal developmental opportunities.
