

Veterinary Ophthalmology Position in FRANCE (Bordeaux) Available as of January 2021

We are looking for a French-speaking board-certified specialist in ophthalmology to join our team.

The position is available as of January 2021.

Our ophthalmology department currently employs three dedicated nurses, two full-time senior veterinarians and a part-time junior veterinarian. Outside regular hours, we provide on-call backup in the evenings and weekends for the clinic's emergency service with on-site response when needed. High-quality equipment makes it possible to offer a high-standard service in line with latest advances in veterinary ophthalmology (e.g. phaco machine INFINITY, UBM 35MHz, endolaser, OCT).

Dr Frédéric Goulle obtained the French Diploma of Specialized Veterinary Studies (DESV) in Ophthalmology and Dr Charlotte Barbé is about to acquire as well. Team growth with a new board-certified specialist would permit the expansion of our services and maybe the introduction of a residency program.

We are part of the referral center AQUIVET, which is located in Eysines, a suburb of Bordeaux in South West of France. We work closely with the specialists of the other five departments of the clinical center including two ECVIM-CA, one ECVIM, one ECVIM-cardiology, one ECVDI and two ECVDI-residents, two ECVS, two ECVS-residents and two surgery assistants, one ECVD diplomate and one physiotherapist. Emergency services (night and week-end) are provided by six veterinarians.

For more details, please refer to our website: <https://www.aquivet.fr>

Bordeaux is a very attractive city offering numerous cultural and sports activities. Beautiful Atlantic beaches and Pyrenees mountains are within easy reach to escape the city.

For further information or to apply (letter of interest, CV and references), please email to our human resources service:
